

TABLE 2A. General Statistics for Mineral Operations, by Industry Groups and Industries:**1963 and 1958-Continued**

Note: See appendix A for an explanation of terms used.

Footnotes for table 2A.

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (MA) Not available.
 (x) Not applicable.
 n.e.c. Not elsewhere classified.
 For crushed and broken stone, sand and gravel, and clay mining operations in manufacturing establishments, the number of production, development, and exploration workers was estimated from reported figures for man-hours. No data were obtained on other employees at such operations, hence, the same figures are included for production, development, and exploration workers and for all employees at such operations. For value of shipments and receipts, includes the estimated value of minerals produced and used in the same establishment.

For crushed and broken stone, sand and gravel, and clay mining operations in manufacturing establishments, excludes the cost of purchased machinery installed.

Excludes figures for crushed and broken stone, sand and gravel, and clay mining operations in manufacturing establishments.

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (HA) Not available. (X) Not applicable.
 Represents gross shipments of the mineral indicated by the industry name less minerals transferred to other establishments for preparation or less minerals received from other establishments for preparation.
 Represents expenditures during the year for both new and used plant and equipment.
 Figures for cost of minerals received for preparation are included with those for cost of supplies, purchases for resale, and purchased fuels and electricity energy.
 Includes figures for minerals produced and used in the same establishment in making manufactured products. The value of such products was estimated.
 Figures for the value of shipments of primary products by establishments classified in other industries are included with those for the value of shipments of primary products by establishments classified in the specified industry. See also footnote 4.
